CORE COMPETENCIES

The McConnell Group, Inc, is a “One Health” life science company providing a comprehensive selection of professional and technical services and products to support our clients by collaborating on activities that protect the U.S. health system from new world threats. Our belief that human, animal, and environmental health are interconnected guides our transdisciplinary approach to enhancing our clients’ success.

SERVICES

Known for our understanding of the full lifecycle of drug development, public health, and animal health, we provide research support services in the following key areas:

- Biomedical Research Support Services
- Biodefense Research Services
- Veterinary Health Services
- Modeling and Simulation Services
- Laboratory and Medical Supply Sales

BIOMEDICAL RESEARCH SUPPORT SERVICES

We provide research and development support services to commercial, military, and civilian clients with a focus on the prevention, diagnosis, and treatment of diseases across the spectrum of human and animal health.

PROJECT EXPERIENCE:

- Built COVID-19 testing laboratories for facilities in rural locations
- Supported rollout training for the Defense Health Agency’s eIRB across major Air Force clinical centers
- Managed the development of the Air Force Medical Health Policy
- Provided core genetic research support for several human and animal research studies for the Air Force

BIODEFENSE RESEARCH SERVICES

We support the entire research spectrum from basic research to the development of new diagnostics, drugs, and vaccines.

We specialize in helping our clients develop medical countermeasures (MCMs) against infectious diseases and chemical agents.

PROJECT EXPERIENCE:

- Supported USDA-ARS biocontainment laboratories for the study of diseases that threaten the animal agricultural industry and public health
- Studied high-consequence zoonotic diseases affecting large livestock
- Identified and screened an alternative method for infectious carcass pretreatment

VETERINARY HEALTH SERVICES

We provide services to organizations in need of specialized veterinary and surgical support, animal husbandry services, laboratory animal sciences, facility management, research and technical support, and military working dog (MWD) support.

Our veterinary health services include:

- managing and operating laboratory animal facilities
- staffing and training for laboratory animal care facilities
- supporting and maintaining AAALAC International accreditation
- third-party regulatory oversight and facility inspections.

PROJECT EXPERIENCE:

- Oversaw design of a new commercial R&D animal facility
- Provided oversight of an animal care program for a 650-acre research farm with large and small animals
- Provided veterinary consultancy to Air Force Special Operations command
- Supported USDA-ARS and developed documentation support decisions

MODELING AND SIMULATION SERVICES

We develop and operate modeling and simulation systems that perform a wide range of analyses, including those that:

- evaluate environmental impacts
- plan for future training needs
- evaluate and prepare for military operations in the areas of patient services, surgical technicians, health care technicians/physicians and administrative outpatient services.

PROJECT EXPERIENCE:

- Worked with the VA to use simulation to support rural health centers across the U.S.
- Expanded Navy simulation centers across the U.S.
- Increased the breadth and depth of a simulation platform for a major university
- Created medical readiness training for deployed military personnel

LABORATORY AND MEDICAL SUPPLY SALES

We carry a comprehensive line of general laboratory equipment and consumables from a variety of major manufacturers.

Our portfolio includes instruments and consumables for basic and applied life science research, quality control, research and development, and clinical applications.

We offer biomedical research supplies and equipment focused on R&D used in AAALAC International accredited facilities.

COMPANY INFORMATION

DUNS Number: 008995003

Cage Code: 1B6E9

Key NAICS Codes:

334516, 339999, 423450, 423490, 424210, 424690, 541714, 541715, 541990, 541611, 611430, 61170

Certifications:

SDVOSB; NMSDC – MD/DC/VA/SWaM

GSA Contract Number: 47QSWA20D0005

OASIS Contract Pool 1: 47QRAD20D1156

ISO 9001: 2015 Compliance

CLIENTS

We serve the federal government, commercial entities, and academic institutions.

Past and current clients include:

- US Air Force • US Army • US Navy
- Defense Health Agency • Veteran Affairs
- US Department of Agriculture
- US Department of Homeland Security
- Environmental Protection Agency
- National Institutes of Health
